ABOUT THE AREA NEEDING SHIELDING

Room(s) needing Shielding		Rationale	
Meter(s) used		Attachments to meter	
Source of EMF		Type of EMF	
Location of source <small>(including distance)</small>		Highest readings from this source	
Position of other source(s) and highest readings		Occupant activity	
		Consider compliance, use of equipment, use of rooms...	
IAQ considerations		External factors	
		Consider metal fences, metal flyscreens, positioning of sources...	
Other <small>Eg client preferences, your thoughts...</small>
